Faculty
Dale M. Maronek, Professor and Head
Jeffrey Anderson, Stress Physiology
Louis Anella, Ornamental Horticulture
Gregory Bell, Turfgrass Science
Lynn Brandenberger, Food Crops
Janet Cole, Ornamental Horticulture
David Hillock, Consumer Horticulture
Michael Holmes, Landscape Architecture
Paul Hsu, Landscape Architecture
Brian Kahn, Vegetable Crops
Charles Leider, Landscape Architecture
Niels Maness, Postharvest Physiology
Dennis Martin, Turfgrass Management
William McGlynn, Food Science
Doug Needham, Floriculture
Steve Owens, Oklahoma Gardening Host
John R. Ritter, Landscape Architecture
Warren Roberts, Vegetable Crops
Michael Schnelle, Ornamental/Floriculture
Michael W. Smith, Pomology
Eric Stafne, Fruit Crops

Please email rhiannon.battles@okstate.edu with your name and “Hort & LA newsletter” in the subject line so we can send next year’s issue electronically.

Landscape Contracting
Students Win at National Event

Oklahoma State University Professional Landscape Network (PLANET) club members represented OSU at the Student Career Days competitions. Dean Wilson, OSU senior, won second place in the Compact Utility Loader Operation Event. Seniors Ann Pham and Leah Dillsaver each won fourth place in their events, Construction Estimating and Interior Design respectively. Twenty OSU PLANET Club members, traveled to Brigham Young University in Provo, Utah to attend the Student Career Days on March 23 through March 26, 2006. The students were accompanied by OSU’s College of Agricultural Sciences and Natural Resources Associate, Dean Dr. Ed Miller, Horticulture & Landscape Architecture Department Head, Dr. Dale Maronek, Landscape Contracting Program Director and Student PLANET club co-advisor, Dr. Janet Cole, and Stu-

Katy O’Melia participates in the landscape installation competition at PLANET Student Career Days.

John Lee participates in the pavers competition at PLANET Student Career Days.
What are you up to?

We would like to let our readers know what our alumni are up to. Please send us an email with a notice about what you are doing so we can include it in our next newsletter. Please email updates to rhiannon.battles@okstate.edu.

Alumnus Update

Mike Frost, who graduated from the department with his MS in 1997, took a new position last year as the General Manager for Baker West Nursery. Mike and his wife, Steffanie, now live in Oregon with their two sons.

Turfgrass Gaining Ground in South Korea

K Koh, Ag Technician for Dr. Greg Bell, attended the 27th International Horticulture Congress & Exhibition in his home country, South Korea (13-19 Aug). The theme of IHC 2006 was “Global Horticulture: Diversity and Harmony” which signifies the importance of maintaining and preserving horticultural diversity as well as harmonizing diversity within the global village. Koh presented his recent research “Using Greenseeker handheld sensor for evaluating turfgrass quality”.

Turfgrass curriculum at the university level has not been developed yet in South Korea, however the turfgrass industry there has been increasing dramatically. There are 281 golf courses in South Korea including those under construction. The total production of commercial sod was approximately 3000 ha/year (equivalent to US $900,000). The state of Oklahoma is bigger than South and North Korea combined.

Michael Smith Receives Award for Excellence

Oklahoma State University’s Department of Horticulture and Landscape Architecture congratulates Dr. Michael W. Smith for receiving the Julian C. Miller Sr. Distinguished Research Award for Excellence in Horticulture Research. The award recognizes Dr. Smith for his outstanding contributions in pecan research. Dr. Smith received the award at the annual meeting of the Southern Region of American Society of Horticultural Sciences in Orlando, Florida, on February 7, 2006.

Dr. Smith’s research contributions to the pecan industry have had world wide impact. His research includes methods for increasing pecan quality and yields. Particularly notable is his development of a mechanical nut thinning of pecan to increase quality and maintain yields among years. He is a Regents Professor in the department.

Study Abroad Experience Influences Career Path of Alumnus

When Tracey Payton (2004 graduate) went to Greece for HORTECUS (Horticulture in the European Community and the United States) in February of 2003, she had no idea the benefits the experience would offer when looking for employment and continuing her education. While in Heraklion, Greece, she worked in the Plant Breeding and
Genetics lab doing RAPD-PCR on cultivars and landraces of Greek cucumbers.

Shortly after her return stateside, she found the USDA-ARS in Stillwater was hiring. She contacted Dr. Kevin Shufran of the Insect Genetics Lab and emailed him about her experience in Greece. His reply to Tracey’s email was “that is exactly what we are looking for.” She began work for the lab in August 2003 and remained there for her final 2 semesters. The work Tracey did included her own RAPD-PCR project for Undergraduate Traineeship credit in Entomology, for the Russian Wheat aphid!

After graduation, she worked for 6 months until she decided to pursue a Masters degree in Entomology. She contacted Dr. Shufran once again, and he made her an offer she could not refuse. This offer included a federal job at the USDA where she could do her research, including extending her RAPD-PCR project, which is now an integral part of Tracey’s thesis. The HORTECUS program not only allowed her to study in a foreign country and have experiences she will never forget, but it has enabled her to have many beneficial opportunities. This experience paved the way for her to further her education and narrow her plan of study.

Faculty Visit the Ukraine

Drs. Maronek and Leider accepted an invitation to visit and evaluate the instructional methods of the only two landscape design programs at universities in the Ukraine in July. As a result of the visit the OSU Landscape Architecture program has offered to sponsor landscape design faculty from the Ukraine, through the Fulbright program, to study methods to conduct the restoration of historic landscape designed projects in the Ukraine followed up with the preparation of a grant application through the American Embassy in Kyiv to restore a significant historic designed landscape.

Historic Cultural Landscape Research

Two case studies as Special Topics courses (LA 4990) are underway on significant historic cultural landscapes in Oklahoma based on the Survey and Analysis of Oklahoma Designed Landscapes undertaken by Dr. Leider in 1987. The 1987 study identified 40 significant historic landscapes in Oklahoma. Up to this time 10 case studies have been completed and filed in the U.S. Library of Congress Library through the Historic American Landscapes (HALS) of the National Park Service. Landscape Architecture student, Michelle Bryant, is preparing measured drawings for the Council Oak site in Tulsa and Derek McCall, Dean Wilson, and Kristin Ferrell are preparing measured drawings of the Shriner’s Temple site in Guthrie. The original site plan for the Shriner’s temple was prepared by Hare and Hare of Kansas City in the 1920s. Dr. Leider is serving as the instructor for the students in the Special Topics courses.

OSU Horticulture Alumni Earning National Recognition

Oklahoma State University Horticulture & Landscape Architecture alumni are making an impact in the botanical garden world. Longwood Gardens near Philadelphia, a world premier horticulture attraction, recently named Horticulture alum Paul Redman as Director of the prestigious garden. Redman, a 1990 OSU Alumni, attracted Longwood Gardens’ attention while serving as executive director of Franklin Park Conservatory in Columbus, Ohio, since 1997. Casey Sharber and Ed Moydell, 2002 and 2004 horticulture alumni respectively, are Fellows in the University of Delaware’s highly competitive Longwood Graduate Program. Moydell was named the 2005 Louise Roselle Fellow in Public Horticulture, one of the most esteemed awards given to graduate students of the Longwood Graduate Program.

Industrialist Pierre S. du Pont created Longwood Gardens 100 years ago. The garden encompasses more than 1,000 acres including 4 acres of heated greenhouses, 20 outdoor gardens, 20 indoor gardens and 11,000 different types of plants. Open all year Longwood Gardens hosts an estimated 900,000 visitors each year.

OSU Turf Student Participates in Katrina Recovery

A group of 30 golf course management professionals, primarily from the Rocky Mountain region, visited New Orleans, March 12-19 to help four golf courses recover from Hurricane Katrina.

Under the direction of Vail (Colo.) Golf Club superintendent Steve Sarro, the group met in Colorado Springs and traveled to the Mississippi Delta on March 11. The TPC of Louisiana, English Turn Golf & Country Club and two municipal facilities (Audubon Golf Course and Brechtel Golf Course) were targeted for clean up. English Turn hosted the PGA Tour’s Zurich Classic of New Orleans, April 27-30.

“What is nice about this industry is we are used to helping each other out. We are all friends and want to help,” Sarro
Scholarships and Awards

At our 31st Annual Departmental Awards Program on August 26, 2006, our students were awarded $137,928 in scholarships for the 2006-2007 academic year and several special awards were given by the department. For a complete list of the department’s scholarship and award recipients please click here.

The department would like to extend a thank you to all of the scholarship donors. We appreciate your support of our students.

Japan Study Abroad Program

Professor Paul Hsu led a group of students on a study abroad trip to Japan. During their stay from May 12 to May 26, 2006, Professor Hsu and eleven students visited traditional temples and shrines in Kyoto and Kameoka as well as toured Japanese gardens and historic architecture in Tokyo.

On May 15 Mayor of Kameoka, Masataka Kuriyama, received the group at City Hall and caught up on the events of the past year with Professor Hsu. The Mayor was able to spend thirty minutes talking with the eleven students.

Professor Hsu and the students stayed in Kameoka during a beautiful season of blooming flowers and new foliage. They studied hard, participated in homestays, and enjoyed cultural exchange with the citizens of Kameoka.

This is the seventh year that Kameoka has received a group of students from the department.

2007 Oklahoma Proven Selections

Each year Oklahoma Proven recommends a tree, shrub, perennial, and annual for use in Oklahoma. Below are the selections for 2007. Oklahoma Proven is the brain child of the Department of Horticulture & Landscape Architecture and is supported by the Oklahoma Department of Agriculture and the Oklahoma Green Industry.

Oklahoma Proven Selections for 2007
Oklahoma Redbud, *Cercis canadensis var. texensis* ‘Oklahoma’
Southern Waxmyrtle, *Myrica cerifera*
Blanket Flower, *Gaillardia*
Evening Primrose, *Oenothera macrocarpa* ‘Comanche Campfire’

Click here for Past Oklahoma Proven Selections

Departmental Seminars

The following is a list of departmental seminars presented during 2006.

Charles Rohla, Chemical Indicators of Pecan Germplasm Yield Potential and Irregular Bearing - March 2, 2006
Dharmendra Bangalore, Influence of Watermelon Maturity on Tissue Ultrastructure, Lycopene Distribution, and Antioxidant Activity - March 9, 2006
Holly Han, Studies in Adaptation of Bermudagrass Selection for Commercial Suitability - April 13, 2006

Scholarships and Awards

At our 31st Annual Departmental Awards Program on August 26, 2006, our students were awarded $137,928 in scholarships for the 2006-2007 academic year and several special awards were given by the department. For a complete list of the department’s scholarship and award recipients please click here.

The department would like to extend a thank you to all of the scholarship donors. We appreciate your support of our students.
Competition Placings

Each year students participate in national and regional contests. The 2006 rankings are as follows.

66th Association of Collegiate Branches Horticulture Judging Contest at Southern Region ASHS in Orlando, Florida - February 2006:
Team: Ellen Weatherholt, Laura McDonald, Laura Bible & Dana Cox
2nd Place Overall - Team Ranking
2nd Place Greenhouse Foliage & Floral Crops - Team Ranking
2nd Place Vegetable Crop - Team Ranking
3rd Place Fruit & Nut - Team Ranking
1st Place Overall - Ellen Weatherholt, Top Individual Ranking
1st Place Greenhouse Foliage & Floral - Ellen Weatherholt, Individual Ranking
1st Place Vegetable Crop - Ellen Weatherholt, Individual Ranking
2nd Place Greenhouse Foliage & Floral - Laura Bible, Individual Ranking
3rd Place Fruit & Nut - Matt Quirey, Individual Ranking

65th Annual National Intercollegiate Floral Crop Quality Evaluation & Design Competition at Utah State University - April 2006:
OSU Judging Team: Dana Cox, Nate Diekelman & Laura McDonald
2nd Place Judging Cut Flowers - Laura McDonald, Individual Ranking
3rd Place Overall Judging - Laura McDonald, Individual Ranking
4th Place Judging Potted Plants - Nate Diekelman, Individual Ranking
5th Place Judging Potted Plants - Dana Cox, Individual Ranking
OSU Design Team: Lindsey Kesselhuth, Kadie Koepf, Laura McDonald & Rachael Ramon
2nd Place Professional Division, Class 1 Bridal Bouquet - Laura McDonald

Planetary Student Career Days, Brigham Young University, Provo, UT - March 2006
2nd Place Compact Utility Loader Operation - Dean Wilson, Individual Ranking
4th Place Construction Estimating - Anh Pham, Individual Ranking
4th Place Interior Design - Leah Dillsaver, Individual Ranking

Congratulations to our Graduates

The department would like to extend its congratulations to the following students who graduated from our department.

Fall 2005
John Wayne Anderson
Joseph Landon Cantrell
Joey Brent Duvall
Christopher Garrett
Scott Allen Harmon
Chad Hunter Hetrick
Charles David Higgins
Cheyne Wade Jinks
Jana Faye Morris
Richard Powell
Joey A Ragsdale III
Carson Ben Silk
Trent Wayne Smith

Spring 2006
Michael Joe Albert
Jackie Andrew Beam
Laura Adrianne Bible
Julia Christine Broton
Harlan Lee Cain
Eileen Cravello
James Leslie Cronister
Jonathon David Daniel
Joshua Todd Davis
Leah Dillsaver
Jared Russell Dyche
Karri Lynn Freeman
Andrew Michael Garrels
Kenneth R Harvey
Izzwan Zygiul Sidiq Ibrahim
Michelle Jantz
Kendall Blake Jones
Regan Michelle Lanier
Michael Ryan League
Justin Daniel Long
Will Frank Lowry
Janakiraman Maruthavan
Chase Daniel Means
Kevin Mehler
Ignacio Mejia
Kaleb Jordan Metcalf
Faye Ann Hatheway Miller
Matt Evan Neal
Crystal Dawn Power
Charles Rohla
Bradley Jay Shropshire
Sloan Wright Smith
Justin Anthony Sowell
John Michael Thomas
Jason Karl Wilke
Adrienne Ashley Wright

Summer 2006
Ignacio Mejia
Austin Blaine Heath
Matthew Evan Neal

Alum Awarded Fellowship

Ms. Casey Sharber, Oklahoma State University alum, was awarded the 2006 Louis Roselle Fellowship. Ms. Sharber earned a horticulture bachelor’s degree with an emphasis in public horticulture and botanical garden management from the Horticulture and Landscape Architecture Department in 2002. During her time at OSU, Casey was active in student organizations and served as President of both the Horticulture Club and Pi Alpha Xi.

Ms. Sharber follows another recent Horticulture Department’s alum by being named a Louis Roselle Fellow in Public Horticulture. In 2005 Mr. Ed Moydell, a 2004 graduate of OSU, earned the same distinction.

Ms. Sharber follows another recent Horticulture Department’s alum by being named a Louis Roselle Fellow in Public Horticulture. In 2005 Mr. Ed Moydell, a 2004 graduate of OSU, earned the same distinction.
Faculty & Staff Recognition

The Department of Horticulture & Landscape Architecture would like to congratulate the following Faculty & Staff for their accomplishments:

Jeff Anderson, Inventor Recognition Award from Oklahoma State University
Lou Anella, Western Nursery & Landscape Association all expense paid trip to the American Nursery & Landscape Association’s Management Clinic, Louisville, Kentucky
Lynn Brandenberger - 5 years of service
Janet Cole, 2005-2007 Vice President of Education Division, American Society for Horticultural Sciences (ASHS)
Harsha Desilva - 5 years of service
Shakuntala Fathepure was hired to fill the Sr. Research Specialist position in the Temperature Stress Physiology Lab under Dr. Jeff Anderson
David Hillock & Mike Schnelle, ASHS Southern Region Extension Communication Award (Blue Ribbon) – for E-972 Landscaping with Trees, Shrubs and Vines in Oklahoma (CD). Award received along with Gayle Hiner, Jennifer Adsit, Patricia Gedon, and Katie Reim of the Agricultural Communications Department
Tim Hooper - 15 years of service
Paul Hsu assisted with the professional training program OSU Division of Agricultural Sciences and Natural Resources provided to Maejo University of Thailand
Brain Kahn was selected to serve as a member of the Curriculum and Academic Standards Committee for the College of Agricultural Sciences and Natural Resources
Charles Leider was appointed First District Officer for Oklahoma and the Chief of the Historic American Landscape by the American Society of Landscape Architects for the purpose of identifying and inventorying worthy sites of landscape significance for the Historic American Landscape Survey for the National Archive of historically significant landscapes; Served on the National Scholarship Committee of Sigma Lambda Alpha; and Presented a paper in June 2006 at the Council of Landscape Architecture Educators (CELA) Annual Meeting in Vancouver, BC Canada on the Role of Landscape Architect in Sustainability
Dale Maronek & Charles Leider represented the Division of Agricultural Sciences and Natural Resources to investigate alternative agricultural possibilities and collaborative efforts in the Ukraine
Dale Maronek was selected to participate in the Leadership Stillwater Class XVII
William McGlynn, Herman Hinrichs Pecan Citation Award from the Oklahoma Pecan Growers’ Association
Doug Montgomery - 20 years of service
Doug Needham, Southern Region Excellence in College and University Teaching in the Food and Agricultural Sciences Award from the Higher Education Programs of US Department of Agriculture; and President, Pi Alpha Xi-National Honor Society for Horticulture
Steve Owens, George J. Vaclavek Gold Medal, Oklahoma Horticultural Society; Assisted with the professional training program OSU Division of Agricultural Sciences and Natural Resources provided to Maejo University of Thailand
Laura Payne - 5 years of service
John Ritter - 15 years of service
Mike Schnelle represented the Division of Agricultural Sciences and Natural Resources to investigate alternative agricultural possibilities in Baku, Azerbaijan
Michael W. Smith, Julian C. Miller, Sr. Distinguished Research Award, Southern Region American Society for Horticultural Science
Eric T. Stafne, A.H. Krezdorn Memorial Award for Excellence in Doctoral Research by the Southern Region American Society for Horticultural Science
Daniel Valdez was hired to fill the Sr. Agriculturist position for the department’s Nursery Research Station

Department Participates in Grandparent U

Dr. Doug Needham and Mr. Michael Holmes participated in OSU’s 2006 Grandparent University. Grandparents and their legacies, age 7-14, gathered at the university for a variety of events during June 22-23 that allow departments to present activities highlighting particular majors.

Dr. Needham and Mr. Holmes focused their group on ornamental horticulture. The participants learned about propagation of ornamental plants for the landscape as well as for the home. They also toured the Oklahoma Gardening studio grounds and learned how to combine color, texture, form and season of bloom to create a beautiful garden of their own design.

Thank You PAC Members

The department would like to thank all the individuals who serve on our Professional Advisory Councils for our Landscape Architecture and Landscape Contracting Programs. Your input is invaluable to us!
Need to Buy a Last Minute Gift?

Our Landscaping with Trees, Shrubs, and Vines in Oklahoma CD-ROM would make a great holiday gift! This comprehensive publication covers benefits, design concepts, recommended methods for planting, care and maintenance, and pest control. There are also lists of suggested plant species for each region of Oklahoma as well as lists of plant material for specific purposes like dry locations, shade, plants with showy flowers, fruits, fall color, and native plant species. Each chapter is filled with colorful pictures and detailed diagrams and there are additional features of helpful internet links and several video clips from Oklahoma Gardening to watch on your computer.

E-972 Landscaping with Trees, Shrubs, and Vines in Oklahoma is a helpful tool for all gardeners and makes a wonderful gift. For only ten dollars each, you can order one for every gardener you know.

To place your order send $10 per CD with a request and make check payable to:

The Horticulture and Landscape Architecture Dept.
Attn: Stephanie Larimer
360 AG Hall
Stillwater, OK 74078-6027
phone: 405-744-5404

Poinsettias!

The department hosted a Poinsettia open house at the OSU Research Greenhouses on November 16, 2006. This open house presented new varieties coming on the market soon for industry professionals to view.

The OSU 16th Annual Poinsettia Sale was held on December 4th and 5th. The sale was originally scheduled for November 30th and December 1st, however OSU was closed those days due to inclement weather. The proceeds from this sale provide scholarships and awards to students in the department and support OSU’s floriculture teaching program, including the Pi Alpha Xi honor society.

New Facilities for Landscape Programs

Fall 2006 marked the first semester that Landscape Architecture and Landscape Contracting students showed up for classes in the University Printing Services building. Due to the pending demolition of the Dairy Science Building, new facilities were required to teach courses essential to the two landscape programs within the department. The recent renovations to the University Printing Services Building provides the department with two new studios, one new classroom, a landscape construction lab, student lounge, and faculty and graduate student offices. This replaces the space that was lost when the Dairy Science Building was vacated last summer, and gives the students brand new facilities to support their degree programs.

2006 Publications

Anderson, J.A. Additive effects of alcohols and polyols on thermostability of pepper leaf extracts. J. Amer. Soc.

HortTips May 2006
2006 Grants

Jeff Anderson
$60,000 from the Centennial Scholars Program. Protein Thermostability Assays.

Lou Anella
$3,000 from the Oklahoma Department of Agriculture, Food & Forestry. Oklahoma Proven FY 2007.
$24,000 from the Oklahoma Department of Transportation. 2006 Highway Tree Program - OSU Beef Cattle Center.

Greg Bell
$90,000 from the United States Golf Association. Nutrient and Pesticide Runoff from Golf Course Fairways Caused by Simulated and Natural Rainfall.
$14,700 from the Oklahoma Turfgrass Research Foundation. Turfgrass Research Program.
$5,000 from the Scotts Company. Consolidated Turfgrass Research.
$5,000 from Bayer. Consolidated Turfgrass Research.

Lynn Brandenberger
$5,000 from the USDA Interregional Project #4. Screening Reduced Risk Materials for Weed Control in Herbs (Summer Savory, Dill, Cilantro & Basil).
$500 from Seminis Vegetable Seeds. Vegetable and Weed Control Research.

Janet Cole
$4,557 from Producers Coop Oil Mill. Preliminary Studies for Creation of a Container Plant Growing Medium Using Cottonseed Hulls & Meal.
$4,000 from Fine Americas. Consolidated Floriculture Research.
$1,200 from ASCFEGRF. Consolidated Floriculture Research.

Brian Kahn
$500 from Syngenta Seeds. Consolidated Olericulture.
$150 from Crookham. Consolidated Olericulture.
$300 from Centest. Consolidated Olericulture.

Niels Maness
$2,000 from Charles Freeman. Value-Added Horticulture Products.
$231,055 from the United States Department of Agriculture. Quality, Evaluation, Preservation and Extraction Processing of Horticultural and Alternate Commodities.

Dennis Martin
$61,025 from the Oklahoma Department of Transportation. Refinement of Roadside Vegetation Management Practices in Oklahoma.
$173,098 from the Oklahoma Department of Transportation. Roadside Vegetation Management Training & Consultation.
$90,000 from the United States Golf Association. Breeding and Evaluation of Turf Bermudagrass Varieties.
$8,500 from Monsanto. Consolidated Turfgrass Extension.
$12,500 from BASF. Consolidated Turfgrass Extension.
$12,000 from Syngenta. Consolidated Turfgrass Extension.
$1,000 from Alligare. Consolidated Turfgrass Extension.
$100 from APO. Consolidated Turfgrass Extension.
$4,000 from ISK Biosciences. Consolidated Turfgrass Extension.
$4,000 from Bayer CropScience. Consolidated Turfgrass Extension.
$34,000 from Dow AgroSciences. Dow AgroSciences Unrestricted.

William McGlynn
$93,910 from the OSU Research Initiative Program. Enology Research Facility.

Steve Owens
$10,000 from the Oklahoma Department of Agriculture, Food and Forestry. Oklahoma Urban Forestry Program in Oklahoma.
$6,000 from TLC Florist & Greenhouses, Inc. Oklahoma Gardening Underwriters Consolidated.
$3,000 from Oklahoma Horticulture Society. Oklahoma Gardening Underwriters Consolidated.

Michael Smith
$13,886 from the Oklahoma Pecan Growers’ Association. Oklahoma Pecan Growers Unrestricted.

Eric Stafne
$1,000 from the Oklahoma Grape Growers. Consolidated Pecan & Fruit.
