

What people weren't looking for on the first Easter.

Instead, people were scrambling to find the body of Jesus of Nazareth, whom they had buried three days earlier. *Why?* Because Jesus said he would prove he was God by bodily rising from the dead. No other religious leader has made that claim and backed it up with such an event. Only Jesus.

We invite you to take a straightforward look at the evidence that has convinced people for centuries that Jesus is indeed who he says he is. To find out more about this remarkable person and his relevance in your life, we encourage you to read the free article, *Beyond Blind Faith*, by Paul E. Little.
